APPLICATION NO. 43,270 OF 1991

Japanese Utility Model Application No. 43,270 of 1991 (JP3043270)

Filed: May 14, 1981

Japanese Laid-Open Utility Model Application No. 126,855 of 1992

Laid-Open: November 18, 1992

Inventor: Toru Hishinuma

Applicant: Nikka Limited

2-20 Tokiwadai, Itabashi-ku Tokyo

Attorney: Yuichi Murakami

Title of Invention: CLEANING SHEET SUPPLY APPARATUS FOR PRINTING
PRESS DRUM

Abstract:

The utility model relates to an apparatus including a cleaning fabric 24 for cleaning a blanket cylinder 10. The cleaning fabric 24 is supplied from a supply roll 26. The apparatus further includes a take up roll 28 for taking up the cleaning fabric 24. The supply roll 26 and the take up roll 28 comprise cores which are engaged with shafts 34 and 36 for removal respectively.
